SOURCE

1. Between 20 May and 3 June 1951, grading work was still being done at Perleberg airfield. Plows and heavy rollers, towed by caterpillar tractors, were used. Soldiers wearing blue epaulets were excavating on the field.
2. Grading work continued on 7 June, but no work was being done on the landing field between 14 and 24 June. Only the guardhouse was lighted at night. *

25X1C Comment. From this information it is believed that construction work stopped at the field. It is not expected that the scheduled construction will be completed in 1951. No air unit is stationed at the field.
